Waterway and Pastoral Landscape Story

1 The main building of former KABATO Detention Center in Tsukigata Town

It is the part of Tsukigata Kabato Museum and had been the office building of the detention center that had opened in 1881 (Meiji 14). The model of the detention center with the size of 1/150 is exhibited in the museum and the room for the superintendent of the center was recreated as it had been in that era. It is also the general information center of "the Pastoral Space Museum".

~What is pastoral space museum?~

It is the effort to revitalize the region by recognizing the whole town as the museum that has no roof. Both Urausu Town and Tsukigata Town are exert an effort to hand down the history, abundant nature and their own culture to the next generation and build up the new history of their own.
